Experience

Sandstorm Design - Front-end Web Developer
January 2022 - March 2025

Developed numerous websites under a CI/CD & Agile environment, primarily focusing on Drupal and Wordpress based-projects, with occasional front-end work in .NET frameworks such as Sitecore, Sitefinity, and Kentico. Contributed to establishing and improving front-end build tools utilising Webpack, Vite, and ESlint. Performed maintenance on a variety of sites, addressing accessibility compliance, security vulnerabilities, and site performance.

BBG Inc. – Account Manager / Software Developer
March 2019 – June 2021

Managed medical data of multiple large-scale companies. Developed Python software to automate Excel enrollment censuses, cutting week-long processes to 1-day processes, integrating the Smartsheets API and Healthcare.gov Marketplace API, and training employees to utilize the software to streamline business processes.

Cleveland Hardware & Forging – Web Developer
November 2017 – August 2019

Rebuilt and maintained the company website. Handled record keeping in an ERP system.

Stream9 – Intern Developer
February 2017 – March 2017

Interned under the tutelage of senior developers and performed homepage enhancements.

Education

We Can Code It – Student
March 2017 – June 2017

Full-time coding boot camp, learning full-stack development from expert instructors and hands-on projects. Planned, designed, and developed applications in team-based settings, demonstrating the proficiency to earn Software Engineering Certificate.
